EARL SEARS

Dedicated and Accountable to You

The foundation of District 11 is its people: faithful, hard-working, family-oriented, passionate men and women. I am proud to call Bartlesville my home. Before statehood, my great-great grandfather, Joseph Hardin Bennett, settled in this area and helped build the communities of District 11. The legacy left by our ancestors is significant, and it is what helps guide me today. I have lived and worked in this area my entire life. This is more than my home - it is my heritage.

My experience is serving people - as an educator and principal to children, a city councilman, and an advocate for civic improvement, I have worked diligently to promote small businesses, support wise use of tax dollars, and improve local government.

I am committed to:

- improving education
- reducing taxes
- creating jobs
- limiting government
- preserving family values

Because I believe strongly in the people of District 11, it would be my great honor to serve you as state representative. I would appreciate your vote on Tuesday, July 25th.
